The application for an Agricultural Fair for Strathmore and district is at present at Mr. F. J. Dunn's office. All interested in a fair this year should stop in and sign it as early as possible, for if the application is not in to the Department of Agriculture soon, and sufficiently signed, there will be no fair here this year.

Rev. A. Rannie Will Speak
To-morrow evening at 8 p.m., a meeting will be held in the Union Church for the purpose of re-organising the Church under the new plan of Union.

At this meeting the various officers of the church under the new system, such as elders, stewards, etc., will be elected, and an invitation will be extended to Rev. Rowe to remain with the congregation.

Under the Methodist system, under which in the past this church has been operating, pastors are subject to change of location by the Central Board, but on the new basis a pastor may remain with a congregation for as long a period as is mutually agreeable.

Rev. A. Rennie is a former Presbyterian minister of Strathmore, and is at present minister of Bankview Presbyterian Church, Calgary.

All interested are invited to attend.

to publish herewith figures, kindly supplied by the railways, showing the shipments from loading points in the district, in this part of the Northern Bow Valley. The total amount of grain shipped up to March 1914 on the two railroads was 4,788,000 bushels, principally wheat.

Carlsland holds the record for the most shipments, with a total of 100 bushels, of which 428,000 bushels were wheat, the remainder being barley, oats and other grains. As of date there were still 35,000 bushels in store in the elevators at Carlsland, and with what has yet to come in Carlsland will hit the half-million mark.

Though the total is less than last year, it is still a record, yet the difference in price and cost of harvesting make the crop a more profitable one. The district included in these figures represents an area approximately 36 square miles.

During the past week further moisture in the form of snow has fallen, though the weather has not been cold. Melting snows have left the roads throughout the district in very bad shape, and they are impassable for motor cars, and difficult for horse-drawn conveyances.

While the heavy snowfall affects traffic, the moisture will be of great value in giving the crop a good start, and as it is melting slowly, the land is getting the benefit of it. There has been more snow this winter than for many winters past.

A meeting of Strathmore Board of Trade was held at the home of the Chairman, Mr. Joe French, last Wednesday evening. The business transacted was mostly of a routine nature.

The Board agreed to purchase a triangular piece of ground at the rear of the present school grounds, measuring 1.72 acres, at a price of \$175. This ground will be used as an additional playground, and will be fenced, and also have a tree border. This improvement has been advocated by the inspector for several years.

The Board re-opened the case of the boys suspended some weeks ago, but re-affirmed their previous stand, awaiting the visit of Inspector Buchanan.

The Dalemead Minstrels staged their big show on March 20, and did as good as could be expected from improvised negroes. After the show luncheon was served in the basement, which was followed by a dance.

The U.F.A. and U.F.W.A. held their regular monthly meeting on the afternoon of the 20th. A great deal of important business was discussed, and both meetings were largely attended.

Mr. and Mrs. Frieze, who have been visiting relatives at Charlton, Miss., during the winter months, returned some time ago, and report a good time.

Re-Organized

Almost fifty townsmen and farmers sat down to luncheon in the dining room of the Memorial Hall on Friday evening last, under the auspices of the Strathmore Board of Trade. After a fine repast, purveyed by Billy Williams, of "The Better 'Ole," the Board was re-organized, and a number of matters for the good of the town and district discussed.

President H. W. B. Bell occupied the chair, and Mr. F. J. Dunn was appointed secretary pro tem.

Wednesday Half Holiday
The president brought up the matter of a half-holiday on Wednesdays during the summer months. The discussion on this matter was altogether favorable, the farmers present sympathizing with the retailers in their desire for a little leisure out of the busy days; but as several retailers of the town were not present, no decisive action was taken, though the vote in favor was almost unanimous.

Road Improvements
The road situation was discussed and Mayor Bell said the Town intended to do all the work they possibly could this year improving the entrances to the town.

With regard to the Government road, Reeve Chamberlain said that the Provincial Government had not promised to do any work on the main road further than Langdon corners, and he believed that pressure should be brought to bear, through Boards of Trade, Municipalities, and U.F.A. locals in Strathmore, Gleichen, Standard, and Rockyford districts to put the Calgary Medicine Hat highway in shape this summer. It was the main artery for these districts, and it had been in a deplorable shape all last season. This road was under the four-year program of road construction, and would be fixed within the four year period, but it would be of great advantage to have it fixed this year.

On motion the annual membership fee for the Board of Trade was fixed at \$10 per year for business men of the town, and \$1.00 for other members. From \$10 to \$20 was the annual fee in other towns in the Province, it was explained.

Dr. Dunn explained what had been done so far regarding formation of an Agricultural Society for Strathmore and district. All that was wanted now was the signatures of fifty or more people in the district, and the application would be sent to Edmonton. The application form could be signed at his office.

A number of those present, among them Mr. A. Layzell, expressed their support of the idea of an agricultural fair this year. It would be a powerful stimulus to better and more successful farming.

The formation of a Horse Breeders' Association, which is being promoted by Strathmore U.F.A., was also heartily approved.

Presentation to Mr. Harry Tompkins

A pleasant function of the evening was the presentation to Mr. Harry Tompkins, who is leaving town this morning, of a handsome silver humidor, on behalf of members of the Board and others. Dr. A. W. Girvin, in making the presentation, said that Mr. Tompkins had been very efficient and valuable servant to the C.P.R. in Strathmore during the past nine years in his capacity of station agent, and he thought it was only fitting that the town, taking his part in various movements for the good of the town, including several years membership of the Town Council. In his position as agent he had always been most courteous to the people who did business with the company, and just practically all the members of the district, and they wished him all success in the future.

The young people of Mr. Long's Sunday school class gave Mr. Long a pleasant surprise at his home on Sunday evening. About fifteen pupils being present. The evening was spent in singing and Bible stories. After a dainty lunch the class presented Mr. Long with a beautiful bottle stationery case in recognition of his faithful service to his pupils. Mr. Long suitably responded, thanking the class for their kind remembrance.

To help re-establish the home of Mr. and Mrs. McBride, whose residences and all of the contents met with such disastrous results, the good ladies of the community lost no time in organizing a "show" of kitchen ware, bedding, and children's apparel, on behalf of the suffering family. The good work was in the capable hands of Mr. Thomas Craig, Mrs. Carl Garfield, and Mrs. McCune, and it is very gratifying to record that their untiring efforts were cheerfully met with phenomenal success. A well-filled subscription list was also circulated, a large number willingly donating.

Mr. and Mrs. Archibald decided to thank the numerous willing hands who helped relieve their family from the zone of distress while Mr. McBride's residence was in blaze. Mr. Archibald's residence, which is the next to Mr. McBride's, caught fire three times, but was fortunately quickly extinguished by the fire-fighting ladders, who labored late into the night, to save the neighboring residences, and were rewarded in their gallant achievement.

The Junior Literary Society held the first of a series of social evenings in the U.F.A. hall on Friday evening last. The programme was entered into by a concert, which was very much enjoyed. Prior to the entertainment two young ladies were selected to hold a drive to secure members, and it was learned that the lady securing the highest number of members would be exempt from contributing towards a supper, which followed the concert. The unsuccessful lady being the one who had to provide the programme for the evening's enjoyment, which included the cooking of the supper. Those who contributed were: Miss Sadie Helms, Miss Esther Long, Miss Maylin, Elsie and Alberta Strathmore, and Master Glen McCune. The society will hold another entertainment along similar lines in the course of one month.

AN INSPIRATION

Inspired by the example of the poet who won \$5,000 for a blank verse poem entitled "Hot afternoons there have been in Montana," we are offering the following:

"Cold mornings there have been in Strathmore; Very cold mornings; Mornings when the great clouds have dropped from the whisks of Daniel and Louie; Mornings, afternoons, and evenings too, when the hot stove was the only comfort. But there will be hot afternoons in Strathmore. Very hot afternoons. One hot afternoon this summer in Strathmore there will be a Stampede. It will be a hot time. There will be hot dogs. Last Stampede there was no hot dog, only ham sandwiches. If the Stampede makes as much money as the poet did who wrote about "Hot Afternoons in Montana," we will be rich. Yes, there will be hot afternoons in Strathmore.

Mr. G. H. Patrick is back from a holiday spent in the States, and Mr. Ridley has left on his holidays.

We regret to announce the death of Mrs. J. P. Lowry, which occurred at Jackson, Michigan, on Friday, of cancer, a telegram to that effect having been received by Mr. Lowry Saturday afternoon. Mr. and Mrs. Lowry had been on a winter visit to the States, when Mrs. Lowry was taken ill. Mr. Lowry arrived here at the beginning of last week, and rented his land for this year, selling off his stock on Friday, with the intention of staying with his wife at Jackson. Mr. Lowry had been informed that the disease was incurable, but it was expected that Mrs. Lowry would live for several months yet. He left on Saturday afternoon for Jackson. Mrs. Lowry had lived with her husband for a number of years on the farm a few miles north-west of Strathmore, and was highly respected and much loved in the community. Much sympathy is felt with Mr. Lowry in his bereavement.

Mrs. Black, of Nanton, is visiting with her daughter, Mrs. A. D. Sturgeson.

Mr. Dan McDonald leaves this week for his home in Victoria, leaving his brother, Jack, in charge of the farm. He will be back in time for harvest.

Mr. T. P. Greenacre is spending a few days with his daughter, Mrs. Steve Chamberlain. Mr. Greenacre was severely injured several months ago in a motor accident on Drumheller hill, and is still showing the effects, being able to walk only with difficulty.

Mr. and Mrs. Harry Thompson and family left on Monday for Vancouver, being seen off by a large number of friends.

NOT VERY SOFT ON THE HEAD

It's surprising what a little exercise each day—even a stunt like that pictured above—will do for one's health. It's done wonders for Miss Gladys Roy, the Los Angeles aviatrix who not so long ago was severely injured in a fall from a horse.

Miss Roy—yes, that's her posing upside down—was declared a cripple for life shortly after her injury. But her hopes were not to be thwarted. She took up a rigid course of calisthenics, and now—according to information they send us—is "fit to fall off another horse, if necessary."

WHEAT SHIPMENTS

Wheat shipments from the Alberta divisions of the two transcontinental railway companies for the 1924-25 season have totalled to date approximately 58,861,000 bushels. Making allowance for the shipment of wheat from Saskatchewan points on the Alberta divisions, the total for Alberta would be approximately 48,000,000 bushels. The largest shipments have been made from the Lethbridge division, which comprises the greater part of southern Alberta and from which division the wheat shipments have totalled to date 20,400,000 bushels.

BACON HOGS

There has not been the progress in the bacon hog industry that is desired states Alberta's Deputy Minister of Agriculture in his annual report. The number of select hogs going to market has not materially increased during the year and is very low in comparison to the number of thick smooths and other grades. The price of the bacon hog production is sound, declares Mr. Craig, but he urges the wisdom of a careful review

of the whole question of method, or forcing the attendance and cooperation of the provincial department in bringing about any improvement in this direction.

EXPORT OF LIVESTOCK

The statistics with respect to the export of livestock from the province during the year show that 12,785 horses were exported, and 155,207 cattle. Shipments from local points within the province totalled 5,618 horses and 105,455 cattle.

WELL, WELL, HERE'S HENRY

Some of our daddies or grand-daddies may be able to "remember" way back when Henry Ford—father of the motor—was superintendent of an electric lighting plant up in Detroit, Mich.

The above old-time photograph may sort of refresh their memory. It shows Henry himself at the left.

STATION CNRW, WINNIPEG, "ON THE AIR"

RADIO Station CNRW, operated by the Canadian National Railways at Winnipeg, Manitoba, has found an admirer in the Cornet Room located on the seventh floor of the Fort Garry, the company's hotel in the western Gateway City, according to opinions expressed by listeners in all parts of Canada and the United States. The acoustic properties of the room lend themselves splendidly to microphone transmission; plenty of space is available for generously placing musical aggregations of any size,

even to brass and pipe bands, vocal soloists and large choirs, and the broadcast, which are conducted by remote control through station CBY, have "come across" splendidly since this location was secured. Photographs show the scene in the studio on the night of Thursday, January 22, when the photographer interrupted the broadcast for a few minutes with his "Click pleased" and the photo-graph shows The Winnipeg Male Sextette, who contributed vocal numbers: R.H.H. at the

"mike"; Miss Helen Hargard, conductor. The Melody Three and Mr. H. Hargard, assisting. Violinists Al. Klinger, popular soloist, and Carl Strindberg time, beginning with "Goodnight" and "Kiddie" Travel Talk; studio vocal and instrumental program, and Frank Wright's Country Club dance orchestra in dance program from the main dining room.

Mr. H. W. Wightman, who has been visiting her daughter, Mrs. F. Barber, at Portland, Oregon, since December, returned to Langdon last week.

J. Hanlon's sale was held on Wednesday. Mr. Wm. Anderson has bought the farm, and will move there in the fall. Mrs. Hanlon and Miss Hanlon are going to Calgary.

Miss L. Elnin resigned her position as primary teacher, and left on Friday. The new teacher, Mrs. Gladstone, came Sunday and will be in charge of Grades 1 to V Monday morning.

Mr. and Mrs. M. Dunn and family have come back to the farm after living in Calgary all winter. They were Sunday guests at the F. Steele home.

Despite the terrible roads, a crowd had witnessed the production of "The Little Clophopper" by the Women's Institute on Friday evening. Supper and a dance followed, and everyone reports a good time and a splendid entertainment.

"The Little Clophopper" will be presented in the Dalmeny Hall, Friday, April 2nd.

Mr. and Mrs. M. Drake had a runaway Thursday morning after the play. Luckily no one was hurt, but the buggy was broken. Rotor Day is good, natural so he didn't mind getting up to provide another rig.
